AN ADDRESS

OF GRATITUDE AND RESPECT TO COLONEL LAI KUNG SHAN.

MOLONEL LAI KUNG SHAN has onw filled his Office as Acting First Colonel at Tam SHAN for a Period of Thirteen years. During the time, both Travel lers and Residents within his Jurisdiction have been enjoying peace. Before his arrival we remember that armod rillages and highway robberies were prevalent, but, systematic means, he has pscified the whole district. Now outlaws of any sort have disappeared, the whole populace is overwhelmed with blessings, and even animals have no cause for alarm. On his transfer elsewhere, we cannot but commemorate and publish, through the medium of the press his beneficent government, at the same time expressing our esteem and showing our attachment, to this Officer. We fervently hope that he will be attended with rapid promotion in rank, and regret our unauc cesaful attempt to retain him.

The Viceroy, well knowing his talents, will certainly place him in a post of high trust, thus giving the Colonel ample scope of displaying his tast and ability. We are confident that, in his future career, he will perform acts of great marit, and, some day, his name will surply be placed on imperial record, and when we hear tidings of his successes in life, we shall joyfully partake

of his glory and related. The foregoing is our sincere prayer. Signatures of the gentry and elders of the respective villages !-

THE 'YORKTOWN' AT BALER. LIEUTENANT GILMORE AND FOURTEEN MEN

For some time past the Spanish authorities and the archbishop have been urging Admiral Dewey to send a gunboat to the aid of an isolated Spanish garrison in the town of Baler. During the last year a little band of 50 men, 3 officers and 2 priests have been fighting intermittently against the natives of the surrounding country who occasionally attacked the town. No communication has been had with the defenders for a long time, and it is doubtful if they know the state of affairs existing between the United States, Spain and the Filipinos, Finally Admiral Dewcy sent the Yorktown up the east coast of Luzon to Baler. which is situated on the Pacific coast north- The future historian of the 'Fall and Par-He see the place from the ships. During the last decide, schools have bosn opened in all the provinces for the eaching of foreign languages, and Europeans have been employed as teachers. But there are two dinwbacks to this plan. Teachers and students don't understand each other, so that it has often been neces sary to have a Chinese interpreter, who is not always reliable. If the interpreter is reliable, Western sideas are conveyed but slowly to the students. It may be added that the plan is expensive. Little advantage, therefore, has come from this now departure. In a few years, out of it a grand moment when we granped the the encircling of the world with a belt of denote. Amongst others were to be noticed 26 ment out 10 died. In the next six hand of the famous "shommedan divine prayer. years there were 10 double of mis- and saint, now over 30 years a faithful champion of the truth; or of the accom plished Calcutta barriater, a graduate of the University, or of the helf-naked aged

fakir, now giving his latest years to telling others of the Saviour he has found; or where we were greated by the sweet Christian family, some and daughters of a father who once worshipped stones and sticks and then became an honoured clergyman and a mother belonging to the fourth generation of native Christians.

But this brief outline must draw to a close. Time would fail me to describe the work accomplished in the vast regions of N. W. America; of the thousands of Christian converts worshipping under the care of their own native pastors and teachers in the very centre of the Darl Continent; or of the missionary afforts in China, Japan and the ancient Bible lands of Palestine, Egypt, and Parala; and though here the chorus of Obristian praise grows more feeble, we wonder that it should be so, that in the very lands where the early aposiles preached, superstition should reign. But we are reminded that the success of the Christian truth is not to be estimated by the present number of convorta; we seem to hear the distant trans of the yast multitude of those who hive gins before, and we hear the sound of vo'ce , as the noise of many waters, praising God and saying Worthy is the Lamb to receive power and riches and honour and

glory. . . . He shall reign for ever The choir thon sung- For My sake and the Gospel'e. Dr Graves, Baptlet Michion, then proposed the first resolution - That this meetlag degrees to express its deep thankfulnoss to Almighty God fire the continued blessing vouchunfed to the Church Miss gionary Society during the part 100 years. manifested in the oponing up of that focrithrian to the preaching of the Goppel the removal of difficulties that at one tin & a smied insuperable, and the Zathering out into the glorious liberty of the children of God, Dr Graves proceeded to Ray-We raid in the Book of Revelations of the seven vials and of the adven trumpet. and how one after another not only increased in intensity, but the seventh yial seemed to enclose the whole most momentous vision, and so as we view the centuries following one upon another we seem to be standing now in the last and most momentous of all. We see what science his accomplished. I remember reading about kong on the steam engine, and how at the first

men argued that it was impossible to build a ship capable of containing sufficient | having made appointments at fixed dates coal to take a ship across the Atlantic Ocean; but what do we see now! How wonderful are the changes wrought by the introduction of steam and electricity during the last 100 years. But amongst all these things, nothing can create a grouter interest than the missionary movements. You have heard something f the work of the great society whose centenary we are met together to commemorate to-day, and so of other societies what progress has been made! How the word of God has gone forth to conquer, and the Lord Jesus has entered into the hearts of men.! I noted in the manual of
